

About the Project

ENCOUNTER MAP PROJECT

A map of where Detroit meets God, made by the people who live here. The Encounter Map Project gathers micro-stories of encounters with God, roots them in the places where they happened by pinning them to an interactive map, so that our shared stories can open new pathways of connection and reveal a sacred geography.

Gather Your Story

Record your story from anywhere via our website.

Scan the QR code below!

Our mobile studio travels the city helping folks record their stories with a trained host, comfortable seating, and ready to go equipment. Interested in hosting our mobile recording studio in your community, event, or neighborhood? Request a location by sending us an email.

Hear the Stories

Each month our Encounter Map Podcast will select a handful of stories to be showcased. Listen wherever you get your podcasts. Visit a pew located in all 7 districts of the City of Detroit. Each pew, thoughtfully placed, and lovingly cared for by our project artist will not only source the stories specific from the area but will travel inside its district. Visit a pew or host one!
